

## GASTAT Releases for the First Time the Services Statistics Publication

GASTAT releases Services Statistics Publication for 2019, which covers the available public services by administrative regions and governorates in Saudi Arabia. It is the first edition of the publication as GASTAT used to release these data as separate record data according to the service sector. The publication includes in its first edition the services data of (52) governmental, semi-governmental, and private bodies that provide their services to citizen, residents, and tourists as well. It also discusses educational, social, developmental, finance and banking, administrative, agricultural, and public services. Administrative records of entities that own these data are the main source of the data. The publication will be published by GASTAT on an annual basis.
