Preface

One of the most important responsibilities entrusted to the General Authority for Statistics (GaStat) is to provide a wide range of statistical data and indicators through conducting surveys, researches and statistical studies in the population, social, economic fields. The Authority also coordinates with the government entities to collect and prepare the statistical information related to the activities of those entities and they provide the Authority with it on a regular basis as required by the system of GaStat.

GaStat, represented by the Government Services Statistics Department and the Geographical Statistics Department, have issued a series of Services Guides since the issuance of the Royal Decree No. 3 and / 26301 dated 30/11/1401H which indicate that the General Authority for Statistics (GaStat) has to issue the Services Guide for the cities and villages of the Kingdom of Saudi Arabia to be a unified official reference for all ministries, departments, and governmental institutions.

GaStat is pleased to provide the Services Guide for the cities and villages of the Kingdom of Saudi Arabia, the sixteenth edition, which reflects the data related to the educational, health, administrative, social, security services, judiciary, agricultural, banking, lending funds and public services for the year 1436/1437 H, which is the reference year of this guide. The guide’s data shall be a useful reference for all beneficiaries and shall meet the requirements of planners, researchers and those concerned with the distribution of the public and private services at the Kingdom’s level.
First: Descriptive introduction for the services guide:

The Royal Decree No. 3 / / 26301 dated 30/11/1401 H indicates that the General Authority for Statistics (GaStat) has to issue a Services Guide for the cities and villages of the Kingdom of Saudi Arabia to be a unified official reference for all ministries, departments, and government institutions. It aims at providing essential data for planners, development policy makers and decision makers. The Authority works on preparing, publishing, and improving this Guide, also it makes the necessary amendments and updates it to meet the new changes, requirements and the actual needs in accordance with the achievement of the Kingdom's Vision 2030 in all sectors from the essential data included in the Guide.

The Guides takes the administrative division of the Kingdom of Saudi Arabia according to the regions system issued by Royal Decree No. 92 / dated 27/8/1412 H (administrative regions, governorates, municipalities) as a general framework for the distribution and classification of data in 4 main groups including (the geographic dimension, general and higher education, health services, public and administrative services) available in the cities and villages of the Kingdom of Saudi Arabia.

The Services Guide for the cities and villages of the Kingdom of Saudi Arabia is the result of the service inventory survey in villages and cities which is one of the field surveys for the government departments that provide the service in the Kingdom of Saudi Arabia. And it is an inventory of all available services in the populated area (cities - villages) distributed by the administrative division of the Kingdom of Saudi Arabia.
Second: Objectives of preparing the services guide:

The services guide in the cities and villages of the Kingdom of Saudi Arabia aims at a number of objectives, most importantly:

1-Providing a database about the most important service establishments at the level of the Kingdom’s regions
2-Providing a database about the provided educational services (Education and higher education public and private) at the level of the governorates, municipalities and populated areas in different regions of the Kingdom.
3-Providing a database about the provided health services (hospitals, public primary care centers, ambulances and red crescent centers and private hospitals and clinics) at the level of the governorates, municipalities and populated areas in different regions of the Kingdom.
4-Providing database about the administrative and public services at the level of the governorates, municipalities and populated areas in different regions of the Kingdom.
5- Providing geographical databases and information for each populated area with a certified service and a distance of one kilometer from the administrative unit (emirate, governorate or municipality) which is associated with the populated area, direction and type of road where the populated area and the administrative unit are linked, as well as data about the nearest populated area with educational services or health for the populated areas that do not have any of these services.

Third: Benefits of the services guide:

The importance of issuing the services guide in the cities and villages of the Kingdom is to find a guide that contains data and information unified and officially documented and with high degree of accuracy for all services available in the cities and villages of the Kingdom to be a unified reference for all ministries and government entities and institutions and others. It is also considering as an official document for decision makers in the various sectors in the planning and distribution of services field. A number of government entities are taking the guide as a main and important reference on which they rely on whether in a direct or indirect way to set the future plans for the work and tasks required by them, also to distribute the service facilities in the cities and villages of the Kingdom.

Forth: Periodicity of the services guide:

The first services guide in the cities and villages of the Kingdom of Saudi Arabia was issued in 1402 H, and the guide is issued every three years.
Fifth: Data source for the services guide:

The services guide in the cities and villages of the Kingdom of Saudi Arabia depends on the data and information related to the services from its main sources, represented in the administrative records of the various governmental entities. This data is automatically collected and stored in databases to be processed, monitored, recorded and classified according to the populated area and the administrative subordination.

Sixth: Data reference for the services guide:

The reference year for the data of the services guide (the sixteenth edition) is the financial year of 1436/1437H (2016).

Seventh: Scope of the services guide:

The services guide covers all regions of the Kingdom of Saudi Arabia. And it includes all administrative divisions of these regions from emirates, governorates, municipalities and populated areas. According to the administrative division of the Kingdom, the administrative region is divided into a number of governorates, the number of which varies from one region to another. The governorate is divided into municipalities. The municipalities are administratively linked to the governorate or the emirate of the region. The emirate, the governorate or the municipality includes a number of populated areas (cities, villages, farms, water resources and desert) which are administratively linked to them.

Indicators that measure the average class size and the average number of students per teacher according to each educational stage at the level of governorates or municipalities.

• Possession’s percentage of the educational buildings:

An indicator that measures the percentage of the educational buildings rented or owned by the educational entities at the municipalities level.
Thirteenth: Equations of measuring the indicators of the educational and health services:

- **Educational services:**
  
  Number of students of the educational stage

  \[
  \text{Average class size} = \frac{\text{Number of students of the educational stage}}{\text{Number of classes of the educational stage}}
  \]

  Number of students of the educational stage

  \[
  \text{Average number of students per teacher} = \frac{\text{Number of students of the educational stage}}{\text{Number of teachers of the educational stage}}
  \]

  Number of teachers of the educational stage

  Number of public schools rented or owned

  \[
  \text{Possession of the educational buildings} = \frac{\text{Number of public schools rented or owned}}{\text{Total number of the public schools}} \times 100
  \]

  Total number of the public schools

  Number of public schools rented or owned

  \[
  \text{Average class size per 1000 persons} = \frac{\text{Number of students of the educational stage}}{\text{Total population number in the governorate or the municipality}} \times 1000
  \]

  Total population number in the governorate or the municipality

- **Health services:**

  Total number of beds in the hospitals

  \[
  \text{Average bed number per 1000 persons} = \frac{\text{Total number of beds in the hospitals}}{\text{Total population number in the governorate or the municipality}} \times 1000
  \]

  Total population number in the governorate or the municipality

  Total number of doctors in the hospitals

  \[
  \text{Doctors average number per 1000 persons} = \frac{\text{Total number of doctors in the hospitals}}{\text{Total population number in the governorate or the municipality}} \times 1000
  \]

  Total population number in the governorate or the municipality
Total number of nursing in the hospitals
Nursing average number per 1000 persons = \text{__________________________} \times 1000

Total population number in the governorate or the municipality

Total number of doctors in care centers and clinics
Doctors average number per 10,000 persons = \text{__________________________} \times 10,000

Total population number in the governorate or the municipality

Total number of nursing in care centers and clinics
Nursing average number per 10,000 persons = \text{__________________________} \times 10,000

Total population number in the governorate or the municipality

Fourteenth: Growth rates:
It is possible to review the population growth rates in each Kingdom’s region, and can be used with the population data available in the guide to build the indicators of services at the level of regions or governorates or municipalities.
