

## Dear Resident,

The General Authority for Statistics, GASTAT, is the producer of official statistics in the Kingdom of Saudi Arabia and addresses households and companies to collect essential information in order to provide accurate statistics, representative for the whole country. In particular, GASTAT is currently conducting an important survey on the Saudi labor market, the Labor Force Survey, and needs your cooperation to ensure the accuracy and completeness of the exercise.

Your household was chosen as part of a representative sample, alongside thousands of other households just like yours, and cannot be replaced. Chosen households will be selected to provide information from one to four quarters.

Within a few days, a GASTAT interviewer will call you by phone, at a time that is convenient to you, to complete the questionnaire for you and all the individuals who live with you. The first interview will take about 20-30 minutes of your time. In the subsequent quarters GASTAT interviewer will only contact you to update your information. These calls will only take about 10 minutes to complete. In the near future, GASTAT will also provide survey participants the option of completing the Labor Force Survey questionnaires online via a secure link.

The enclosed brochure provides more information on the important uses of data collected from the Labor Force Survey.

The data you provide will be kept confidential and will be used for statistical purposes only. Your individual data will not be passed on to any other organization or individual for any purposes.

The GASTAT interviewer will be happy to answer any questions you may have. You can also learn more via **920020081** and Client service email: **cs@stats.gov.sa**

I would like to thank you for your support and underline, that your household's participation in this survey is extremely important and highly appreciated.

Thank you in advance for your participation!
