Introduction

This report covers the movement of Non-oil Commodity exports and imports during April 2016 compared with the same period of last year 2015, according to the statistical methods used and the international standard classifications. The most important of these classifications is the Harmonized System(H.S).

It should be noted that the findings contained in the report is considered preliminary, and it may undergo some modifications under the light of new findings.

Note: Some differences in totals or percentages might be found due to rounding numbers.
