Occupation summary

Carry out a variety of tasks related to hatching poultry and other birds, such as collecting, sorting and preparing eggs.

Main accountabilities

1	Control the hatching process, maintain proper hatching conditions, monitor the progress of the hatching process, move the chicks to other locations, and monitor and adjust the heating, lighting, humidity, ventilation and hygiene conditions in hatchery and poultry incubators.
2	Handling the eggs, including sorting and placing it in a special flint, preparing it for hatching, and transporting egg containers from the hatching machine to the hatchery.
3	Handling chicks, including transporting them from containers to their own boxes, and collecting chicks to define their sex and classification.
4	Select, weigh, package, and ship eggs, and record shipping or storage information.
5	Scan the eggs during hatching

Major	9	Elementary occupations
Sub-major group	92	Agricultural, forestry and fishery labourers
Minor group	921	Agricultural, forestry and fishery labourers
Unit group	9213	Mixed crop and livestock farm labourers
Occupation	921301	Farm worker for agricultural and animal production

Occupation summary

Perform simple and routine duties in cattle farms and mixed crops.

Main accountabilities

1	Perform manual works, such as digging and moving the soil, loading and unloading, transporting materials, and classifying, sorting, and packing the products.
2	Manually care for crops or with hand tools, watering and trimming weeding plants, picking fruits, nuts and other crops.
3	Take care of livestock, poultry and other animals, provide food and water to the animals and maintain their environment, and provide assistance in grazing and transporting animals and its hygiene.
4	Clean buildings, facilities and equipment, and perform maintenance and minor repairs on them.
5	Follow public health, safety and environment policies and procedures.

Sub-major group	92	Agricultural, forestry and fishery labourers
Minor group	921	Agricultural, forestry and fishery labourers
Unit group	9214	Garden and horticultural labourers
Occupation	921401	Landscaping worker

Occupation summary

Preserve, organize and maintain landscapes and green areas and apply health and safety regulations

Main accountabilities

1	Add organic and chemical fertilizers as needed to all portions of the landscape
2	Cut and fertilize green areas
3	Irrigation of green areas periodically and regularly
4	Inspect the landscapes periodically, especially during the usual seasons of infection, depending on the life cycle of insects or changes in climate, temperature and apply preventive spraying
5	Compliance with public safety and health regulation

Minor group	921	Agricultural, forestry and fishery labourers
Unit group	9214	Garden and horticultural labourers
Occupation	921402	Nursery worker

Occupation summary

Monitor and maintain the health of seasonal trees, flowers and other plants, ensure plant health, watering, feeding and trimming them, and purifying the soil

Main accountabilities

1	Water plants and fertilization during fertilization time
2	Trimming and removal of dry branches
3	Spray pesticides to control insect and infected pests
4	In the event that you notice an insect infection, control pests should be carried out immediately depending on the type of infection using the appropriate pesticides
5	Compliance with public safety and health regulation

Occupation	921501	Forest worker

Occupation summary

Prepare lines of agriculture, dig pits, and plant, service and protect of forest seedlings and fight simple fires

Main accountabilities

1	Supply contour lines and retaining walls according to the instructions and preparing and maintaining fire protection services
2	Process terraces and dig holes for planting forest trees and planting forest tree seedlings
3	Irrigate of trees seedlings after planting as needed, hoeing of the land and ponding around the seedlings to collect rain and remove dry weeds on the edges of forests
4	Trim and cut unwanted and infected growths and branches.
5	Collect and proper disposal of trimming residues and simple forest fire control with hand tools.

Minor group	921	Agricultural, forestry and fishery labourers
Unit group	9215	Forestry labourers
Occupation	921502	Pastures worker

Occupation summary

Process and cultivate of seeds and seedlings of pastoral plants, trimming of growths and infected branches, trimming and drying of pastoral plants, and control and regulate grazing operations.

Main accountabilities

1	Collect seeds of pasture plants according to the guidelines and prepare lines for planting pasture plants.
2	Sowing and plant the seeds of pastoral plants and plan seedlings of various pastoral plants according to the guidelines.
3	Inspect unsuccessful grass of pastures and replant it.
4	Trim branches and undesirable growths, and trim pastoral plants and collect and dispose of waste.
5	Monitor and regulate grazing of animals for pasture plants at specified times.

Unit group	9215	Forestry labourers
Occupation	921503	Forest fire fighting worker

Occupation summary

Deal with emergencies, protect forests from all types of fire accidents, increase the level of awareness of fire safety, apply accident prevention procedures, enhance safety standards in different places and protect property from fire.

Main accountabilities

1	Supply and maintenance of fire fighting equipment
2	Continuous monitor of forest fire detection and participate in forest fire control operations
3	Prepare a report on forest fire control
4	Take necessary measures to protect forests from fires
5	Compliance with public safety and health, and accident prevention regulation

Occupation	921601	Fish farm worker

Occupation summary

Clean and disinfect of aquaculture ponds, monitor the laying of fish eggs and hatchery, monitor the growth of young fish, feeding, raising and caring for aquatic fish, monitoring the water condition and changing it periodically.

Main accountabilities

1	Clean and disinfect of ponds and aquariums.
2	Monitor the laying of fish eggs, hatching and follow the growth of young fish and other aquatic organisms.
3	Nutrition, breed and care of aquaculture and fish and preserve its environment.
4	Monitor the health status of fish and aquatic organisms and seek medical care when complications occur and provide prescribed medicines.
5	Check the water condition and change it periodically.

Minor group	931	Mining and construction labourers
Unit group	9311	Mining and quarrying labourers
Occupation	931101	Miner

Occupation summary

Operate, control and maintenance of machines, such as shearing machines, plows and cutting machines to facilitate metal extraction, ensure production quality and maintain safety.

Main accountabilities

1	Operate and monitor mobile or tuck mounted drilling or cutting machines in mines, quarries or construction sites, monitor these machines, and verify technical specifications of materials used.
2	Follow health, safety and environment policies and procedures.
3	Conduct routine inspections within preventive maintenance, define problems and take corrective actions.
4	Clean, lubricate and calibrate equipment, perform basic maintenance, notify maintenance technicians or mechanics of breakdowns, and keep track of work performed.
5	Extraction of minerals from the ground with surface mining or underground mining

Minor group	931	Mining and construction labourers
Unit group	9311	Mining and quarrying labourers
Occupation	931102	Quarry worker

Occupation summary

Perform routine tasks required during quarry operations.

Main accountabilities

1	Extraction of subsoil resources from the quarry and follow-up work outputs compared with the planned production volumes, and the application of safety standards and budgets.
2	Sort, load, unload, stack and storage of tools, materials and supplies used by quarry workers.
3	Implement policies, legislation and technical regulations related to quarrying activities.
4	Installation of equipment under the supervision of technicians and maintenance of machinery and equipment and quarry installations
5	Record readings, measurements and record information to ascertain the location and nature of mineral deposits

Occupation	931201	Construction worker

Occupation summary

Measure the concrete mixture and put it in the mixer and transport and handling of the concrete mix, and transport and handling of building and construction materials.

Main accountabilities

1	Measure elements of concrete mixture such as gravel, cement, water and transport them and put them in the concrete mixer.
2	Transport and handle of concrete mix using transport containers and transporting and handling trucks.
3	Handle of building materials such as building stones, bricks, cement bags and tiles to the work site.
4	Lift building materials using mobile crane and vehicles.
5	Clean and lubricate of transport and handling vehicles.

Minor group	931	Mining and construction labourers
Unit group	9312	Civil engineering labourers
Occupation	931202	Road maintenance worker

Occupation summary

Inspect the road and determine the nature and size of maintenance required, estimate the quantity and cost of materials and supplies, and carry out various maintenance works for the roads using the necessary methods in accordance with the instructions and directives of the immediate supervisor and in accordance with the procedures and policies organized.

Main accountabilities

1	Gather the necessary information and data on the state of the roads using advanced methods and approaches in its examination and analysis and summarizing its results in preparation for their maintenance.
2	Determine the tools, materials and supplies required to carry out road maintenance and determining what is missing.
3	Carry out various maintenance works on the roads and ensure full compliance with the procedural and specifications manuals and standards adopted in the work unit.
4	Cooperate and coordinate with other maintenance workshops in order to exchange information, implement and coordinate the maintenance and general safety of roads according to the competencies of the workshops and the needs of the roads.
5	Prepare, submit, document and archive work reports.

Unit group	9312	Civil engineering labourers
Occupation	931203	Asphalting worker

Occupation summary

Execution of excavation, backfilling and re-asphalting of roads and streets according to technical specifications.

Main accountabilities

1	Follow the terms, instructions and regulations related to traffic safety to maintain the security and safety of road users and workers in projects of public services implementation.
2	Process equipment, machinery and materials required for excavation, backfilling and re-asphalting
3	Determine the quality of the work through visual inspection and through the results of field tests and tests to determine the thickness of the layers and other necessary tests that must be adhered to
4	Commitment to the system of protection of public utilities and regulations and instructions issued by the municipalities.
5	Remove all drilling and asphalt products and all that may cause safety damage, and transfer them to the designated public dumps according to the municipal instructions

Unit group	9312	Civil engineering labourers
Occupation	931204	Soil samples collector

Occupation summary

Collect data and information on the sampling site, collect soil samples, and maintain work tools and equipment and comply with health and safety policies and procedures.

Main accountabilities

1	Gather the necessary data and information about the sampling site in accordance with the instructions of immediate supervisor.
2	Collect the necessary soil samples using advanced methods and approaches and submit them to the immediate supervisor.
3	Maintain and sustain of work tools and equipment and ensure their optimal use.
4	Full comply with general health and safety procedures when doing different works.
5	Submit technical models for supervisory management of soil samples in accordance with the policies and procedures regulated.

Unit group	9312	Civil engineering labourers
Occupation	931205	Torrents measurement officer

Occupation summary

Measure the level of rainfall in the torrents and measuring the amount of water flow.

Main accountabilities

1	Identify places and locations of torrents related to the field of work.
2	Follow up the weather forecast and identify the rainfall status.
3	Follow-up rain water in the torrents and determine the height of its level.
4	Measure the amount of torrents flow.
5	Propose water harvesting sites to benefit from the torrents water.

Unit group	9312	Civil engineering labourers
Occupation	931206	Drilling worker

Occupation summary

Perform drilling tasks, including monitoring gauges, collecting samples, ensuring safety, implementing emergency procedures and workers supervision.

Main accountabilities

1	Collect ground composition assessment data during drilling to assist in locating wells and provide data for planning management and development of surveys
2	Transport and supervise drilling equipment
3	Inspect and approve the drilling rig according to the requirements
4	Work on the drilling rig during the drilling process
5	Record the readings and measurements of gravel (rocks gravel)

Occupation	931207	Graves worker

Occupation summary

Dig graves safely and according to correct sizes, leave the excavated graves protected, secure a proper position during the burial ceremony and fill the grave after the funeral.

Main accountabilities

1	Did of graves safely and according to correct sizes and the use of mechanical and other drilling equipment and transport of sand or dust to and from certain places.
2	Leave carved graves protected for certain periods of time by covering them with slabs.
3	Maintain an appropriate position during the burial ceremony and maintain good relations with funeral directors, and all other visitors of the cemetery at all times.
4	Re-fill the grave after the funeral and remove all excess material in accordance with the policies and procedures regulated.
5	Full comply with general health and safety procedures when doing different works and processes.

Occupation	931301	Constructing worker

Occupation summary

Comply with the executive plans for the construction of buildings and estimate the quantities, specifications and cost of building materials, and prepare the construction site and processing of concrete mixes and pouring and compacting and leveling the surface and the construction of stone walls and building walls using different types of bricks and measure the work done and calculate the cost.

Main accountabilities

1	Comply with the executive plans for the projects of building construction, and implement the building phase accordingly, prepare the site for construction, prepare the program and schedule of work, determine the types and specifications of building materials, estimate their quantities and follow up their provision according to the work program.
2	Follow up the processing of concrete mixes according to the specified proportions of building materials and the appropriate textures and pouring them into wooden or metal structures, compaction and leveling their surfaces.
3	Build stone walls and taking into account the pattern of horizontal or vertical construction
4	Build walls using different types of bricks and taking into account the interdependence between them.
5	Measure completed work and calculating cost.

Occupation	931302	concrete mix worker

Occupation summary

Prepare of materials and tools necessary for the preparation and pouring of concrete mix, follow-up processing of concrete mixes on site, and pouring structural elements with concrete and leveling.

Main accountabilities

1	Estimate work materials, select the necessary tools and equipment, and follow up the processing of concrete mixes according to the specified percentages of building materials and the appropriate texture.
2	Check the readiness of the wooden or metal structures for pouring the concrete mix and make sure that being free of problems.
3	Pour structural elements with concrete according to the specified levels and concrete mixture brushes and control the texture and leveling of concrete surfaces and finishing according to specifications.
4	Follow-up spraying concrete in the manner specified in the specifications.
5	Measure the quantities of concrete work completed and calculate the cost.
